

A man with a beard is wearing a VR headset. The image is overlaid with various futuristic digital elements: concentric circles, a radar-like gauge, a bar chart, and a world map. The background is a blurred office setting.

INTERNATIONAL GRADUATE ENGINEERING PROGRAM

The **AKKA**demy

PASSION FOR TECHNOLOGIES

Who We Are

With more than 15,000 skilled employees and a solid presence in Europe, Asia and America, the AKKA Technologies Group is one of the leaders among European consulting engineering companies, always eager to meet the highest quality standards. AKKA Technologies is the European leader in the Mobility segment.

Our Mission

To keep pace with this fast-changing world, AKKA Technologies set up an International Graduate Engineering Program, providing young talents with the opportunity to build a successful career and acquire a lifelong set of consulting skills.

In an international and professional environment, you will be mentored during 12 months with the latest in-class and technical training methods, conceived to supplement your academic background.

Your Profile

A) Information Technologies

Software Development/Testing, Computer Science, Network Engineering, AI, Big Data, Electronics, Embedded Software, Telecom, UX/UI Designers, App Development, Cyber Security, or similar.

B) Engineering

With specialties such as: Automotive, Aeronautics/space, Mechatronics, Electrics/Electronics, Hardware, Embedded Systems, or similar.

Must-Haves

Master's Degree

0-2 years of professional experience

Proficiency in English, French and/or German are a big plus
EU citizenship

More than
20
Nationalities

1
Month of courses
and on-the-job training

4 600
Square meters campus

12
Months of work on
international
operational projects

Roadmap for our Program:

1. The AKKAdeMy: One month in Geneva (Switzerland) with Workshops aiming at giving an exclusive overview of AKKA sectors of activities and projects.

A one-month team-assignment, developing an “innovation project” in an international and dynamic environment with coaching from business managers on customer relations and project presentations Trainings on project management, Agile and SCRUM frameworks

2. Hands-On-Project: 12 months in France, Belgium or Germany

Working on a real assignment in an environment of high-in-demand technologies, you will apply your expertise and your powerful consulting skills in a challenging role with AKKA Technologies. You will be trained in job-relevant skills and receive continuous mentoring.

3. Graduation

For the end of the program, all AKKAdeMy Graduates will return to Geneva for one week to share their experience. Here a graduation certificate will be issued, proving that you successfully completed your International Graduate Engineering Program.

As an AKKAdeMy Graduate, you are on track for an exciting international career at the heart of the industry of the future!
